

DD/S&T 3232-72

15 NOV 1972

MEMORANDUM FOR: CIA Member of IRAC Working Group

SUBJECT: DDS&T Comments on Review of AEDS Forwarded  
by Dr. Hall

1. The subject review of the AEDS was prepared by DIA using a previously approved JAEIC report as a basis. OSI assisted in the preparation of the DIA report and JAEIC provided comments on that report, all of which were incorporated by DIA. Consequently, we are in full agreement with the report and with its implicit conclusions and are gratified that Admiral de Poix also supports these conclusions.

2. The ideas presented in the DIA report are not new but they are expressed in a different format that may be useful for some purposes. We suggest, therefore, that Dr. Hall and DIA be commended for their effort and that the Agency join in supporting the conclusions of the report and those expressed by Admiral de Poix.

Donald H. Steininger  
Assistant Deputy Director  
for  
Science and Technology
